

# Stand Up For The Speechless

Klass 7

When the bombs are falling, we take shelter underground  
But cows they have to stay up in the barn  
We can calm ourselves with that somebody's striking back  
but cats and dogs don't understand the warnings

When the knights were riding out on idiot crusades  
horses had to follow them to war  
No one asked if they would rather gallop round and play  
But they were also slaughtered, traumatized and scarred

Animals suffer all the consequences  
of our lunacies and incongruences,  
All that we destroy, deploy, it lands on them as well  
They're left frightened with no one to explain  
When the napalm and cluster bombs rain  
It's not fair, when flares turn their lives into living hell

That's why we gotta stand up for those who cannot speak for themselves  
Stand up for those who cannot fend for themselves  
We gotta stand up for those who cannot speak for themselves  
Because animals do not choose to be showered with shells

Stand up for those who cannot speak for themselves  
Stand up for those who cannot fend for themselves  
We gotta stand up for those who cannot speak for themselves  
Because animals do not choose to be showered with shells

“The Crown of Creation”, that is what we are called  
But judging from our actions we are not so smart at all  
And we might take the biosphere with us when we fall  
I wish it was the rodents that were playing the ball!

Stand up for the Speechless  
Stand up for the Speechless  
We gotta stand up or the Speechless  
Because animals do not choose to be showered with shells
