

Water, wind, fire

Klass 9

VERSE

In the depths of dreams sky and ocean meet,
Symphony of life , a timeless beat.
Oxygen whispers sun paints,
A knalling of we've lost our way.

(Chorus)

Water, water, ancient song,
Unite for the Earth, we all belong.
To Wind, to Fire, the cosmic ballet,
Rise up, let the protest begin today.

(Verse 2)

Amidst the tar, bees cease their hum,
A melody of hope, a call to overcome.
Break the chains, as waves break on the shore,
A song of change, of change forevermore

(Chorus)

Water, water, ancient song,
Unite for the Earth, we all belong.
To Wind, to Fire, the cosmic ballet,
Rise up, let the protest begin today.

(Bridge)

Dance of existence, find our place,
Banish darkness, embrace it's grace.
The wind of justice, the fire of love,
Can you feel, can you feel, can you feel it?

Sing now the anthem, for a world that's free,
Where oceans are clear, where the sky meets the sea.
Raise up your hand for all to see.
Come and sing, come and sing the anthem,

(Verse 3)

Bees hum a rhythm, join in their flight,
Ignite the flame, protect the light.
Break the chains, stand strong and true,
the age of change, needs an anthem renewed.

(Chorus)

Water, water, ancient song,
Unite for the Earth, we all belong.
To Wind, to Fire, the cosmic ballet,
Rise up, let the protest begin today.
